

Notification about temporary need for care in another municipality

You can receive non-urgent care in accordance with your care plan in another municipality (e.g., control visits for blood-thinning and rheumatism patients, fracture controls and medication shots) by submitting a notification about temporary need for care.

- 1) Request your care plan from the health station responsible for your care.
- 2) Complete the information below and send the form to the health station you are going to use in the other municipality. Enclose a copy of your care plan. **Submit the notification at least three weeks before your first visit.**
- 3) Send a copy of the completed form to your place of domicile. If you are a client at an Espoo health station, leave a copy at your health station. If you are using a health station in another municipality but are still domiciled in Espoo, send a copy of the form and care plan to Espoo Health Services, P.O. Box 202, 02070 City of Espoo

The right for treatment in another municipality will not be applied within the Helsinki Metropolitan Area. If you have selected a health station in Helsinki, Espoo cannot be the other municipality. By contrast, if you have selected a health station in, for example, Kalajoki, Espoo can be the other municipality.

Last name _____ First names _____
